

Christianity and Extraterrestrials?: A Catholic Perspective, 2005, 291 pages, Marie George, 0595802907, 9780595802906, iUniverse, 2005

Does ETI existence spell the death of Christianity? The increasingly popular answer is 'yes.' Marie George argues, to the contrary, that Christian belief is compatible with ETI existence, by examining Roman Catholic teaching and Scripture. She then makes a case that while Christian belief does not exclude ETI existence, it does render it improbable. George goes on to expose the faulty reasoning behind the common opinion that science indicates that the universe surely contains other intelligent life forms. She closes with speculations on what the Catholic Church might eventually say about ETIs. Central to her analysis is the cosmic role of Christ. 'I appreciate arguments like those in "Christianity and Extraterrestrials?," laid out carefully and investigated thoroughly. If more writers proceeded with Dr. George's care and courtesy, there would be new hope for peace in the world.' John L. Barger, Ph.D. Publisher, Sophia Institute Press. 'Although some of Dr. George's claims are controversial, she is clearly an author seeking the truth and open to opposing arguments. Moreover, she has sought out the best sources and used them wisely-in short, an admirable scholarly presentation.' Michael J. Crowe Cavanaugh Professor Emeritus, University of Notre Dame and author of "The Extraterrestrial Life Debate, 1750-1900"
