The student books provide opportunities for students to discover, explore and connect to new mathematical concepts. Students discover the key ideas or approaches to a new concept by first working through an activity designed to deeply embed the concept. Students explore concepts and use problem solving and reasoning to complete activities. Connect activities provide students with opportunities to interpret, formulate, model and investigate problem situations. Independent and small group activities are included. Assess to check for understanding before moving onto the next new concept. Use the topic tests at the end of each Year 3 - 6 student book.
